

The 4th Japan-China-Korea Grassland Conference

第4回日中韓草地学会議

Main theme:

Evolution and future challenges of grasslands and grassland agriculture in the East Asia

Organized by *Japanese Society of Grassland Science* in collaboration with *Chinese Grassland Society* and *Korean Society of Grassland and Forage Science*

Sub themes

- 1 Sharing the international, national and regional issues and challenges in grassland systems in the East Asia
- 2 Forage production and utilization in cropland-based systems
- 3 Ecology and management of grassland-based systems
- 4 Utilization of genetic resources and seed technology

Period: 30 March – 1 April in 2012

Venue: Centrair Hall (Aichi, Japan)

Online Early Registration: 23 Dec 2011

Online Paper Submission: 23 Dec 2011

Program

30 Mar (Fri)	15:00–18:00 Registration
31 Mar (Sat)	8:30–10:00 Opening ceremony (including keynote address) <ul style="list-style-type: none">■ Production of forages in Japan: current state and future perspective <i>Dr Mamoru Nashiki (NARO Institute of Livestock and Grassland Science, Japan)</i> 10:15–12:15 Presentations (sub theme 1) <ul style="list-style-type: none">■ Sustainable management of grassland systems in China: issues and challenges <i>Xianglin Li (Institute of Animal Science, Chinese Academy of Agricultural Science, China) and Kun Wang (China Agricultural University, China)</i>■ Organic forage production system for animal production in Korea <i>Jong Duk Kim (Cheonan Yonam College, Korea)</i>■ Grassland system in Vietnam: history, present condition and prospects <i>Nguyen Huu Van (Hue University of Agriculture and Forestry, Vietnam)</i>■ The current status of forage research and development in Lao PDR <i>Vanthong Phengvichith (Livestock Research Center, National Agriculture and Forestry Research Institute, Lao PDR)</i> 14:00–16:00 Presentations (sub theme 2) <ul style="list-style-type: none">■ Research situation of seasonal growing alfalfa in agricultural regions of southern China <i>Yixin Shen (Nanjing Agricultural University, China) and Bizhi Huang (Yunnan Academy of Grassland and Animal Science, China)</i>■ Strategy for the production of high quality forages cultivated on paddy field in Korea <i>Jong Geun Kim (National Institute of Animal Science, Korea)</i>■ Production and utilization of whole crop rice silage in Japan <i>Motohiko Ishida (Ishikawa Prefectural University, Japan)</i> 16:00–17:00 Japan techno fair <p>Global techniques supporting grassland agriculture and livestock industry</p> 18:30–20:30 Conference party
1 Apr (Sun)	8:30–10:15 Poster viewing (sub themes 1 and 2) 10:15–12:15 Presentations (sub theme 3) <ul style="list-style-type: none">■ Dynamics of grassland on Tibetan Plateau based on CSCS and remote sensing <i>Tiangang Liang (Lanzhou University, China) and Shazhou An (Xinjiang Agricultural University, China)</i>■ Development of methods for monitoring pasture conditions and cattle behavior using GPS, GIS and acceleration sensing technology <i>Nariyasu Watanabe (NARO Agricultural Research Center for Hokkaido Region, Japan)</i> 14:00–16:00 Presentations (sub theme 4) <ul style="list-style-type: none">■ Evaluation and utilization of orchardgrass germplasm in China <i>Xinquan Zhang (Sichuan Agricultural University, China), He Zhou (China Agricultural University, China) and Fugui Mi (Inner Mongolia Agricultural University, China)</i>■ Climate changing impact - keeping the productivity safe for winter cereal forage crops in Korea <i>Tae-Il Park (National Institute of Crop Science, Korea)</i>■ The strategy of forage breeding program utilizing genome and genetic resources <i>Ryo Akashi (University of Miyazaki, Japan)</i> 16:00–17:45 Poster viewing (sub themes 3 and 4) 17:45–18:00 Closing ceremony
